

ZYRHA ALLIAH RAUSA

BS IN INFORMATION TECHNOLOGY

rausazyrha@gmail.com | 0991-298-8696 | www.linkedin.com/in/rausazy

PROFESSIONAL SUMMARY

Information Technology graduate with internship experience in IT support, troubleshooting hardware, software, and LAN connectivity issues, as well as web application development. Skilled in diagnosing technical problems, providing user support, and developing responsive web solutions. A fast learner with strong analytical and problem-solving skills, seeking an opportunity to contribute to IT support and web development while expanding technical expertise.

WORK EXPERIENCE

Optodev, Inc.
IT Intern

November 2025 - May 2026

- Delivered IT support by effectively troubleshooting and resolving hardware, software, and network issues, improving end-user satisfaction.
- Performed system maintenance, including formatting, reimaging, OS upgrades, and software installations, ensuring operational efficiency and minimizing downtime.
- Installed and configured desktops, laptops, printers, and network connections, (LAN, Wi-Fi) to facilitate seamless user experience.
- Managed user accounts using Active Directory for password resets and account unlocking, enhancing security protocols.
- Assisted in deploying IT equipment and network devices, such as Meraki routers and basic Cisco devices, supporting technical operations consistently.

PROJECTS

Development of a Delivery Application for Star Express Cargo
Capstone Project Leader

2024 - 2025

- Developed a comprehensive system for managing deliveries and inventory for a local business, optimizing operations and reducing manual errors.
- Led the team in planning, designing, and developing the project, resulting in a successful presentation at ICSLT 2025 in Florence, Italy.

Coffee Shop Ordering System

2023 - 2024

- Developed a full-stack system with order processing and management features, streamlining the ordering process.
- Contributed to system design, and actively participated in drafting technical and user documentation, ensuring clarity and usability.

Library Reserving System (Prototype)

2022 - 2023

- Designed the front-end user interface to enhance user experience for a library resource center system, aligning with user needs.
- Collaborated with team members to develop functional requirements and validate design concepts.

EDUCATION

National University - Laguna
Bachelor of Science in Information Technology

August 2022 - July 2026
